About me

A Design Lead with 10+ years of experience in product design in software as a service and ecommerce. I am passionate about building human-centered experiences and leading cross/functional teams to learn fast and build impact.
I have a proven track record in design strategy, design systems, prototyping and sparking collaboration.

Core Skills

Design Leadership

- Design Strategy
- Cross-functional collaboration
- Design ops
- Mentorship

Product Design

- UX/UI
- Design Systems
- User Research
- Accessibility

Technical

- Figma
- Adobe Suite
- HTML, CSS, Javascript
- Jira, Miro

Design Lead - Quizrr AB

2024 / 09 – Current

At Quizrr I've been leading the Design strategy, culture and ways of working, leading two designers and three teams in reshaping our worker training ecosystem, consisting of a Dashboard and eLearning software as a service. An emphasis on leading workflows using AI to do more with less, as well as incorporating AI into our ecosystem, such as translations and beyond.

Key Responsibilities

- Design Leadership
- Design Strategy
- Design Operations

- AI Best practices and workflows

Key Achievements

- Drove discovery for a new eLearning experience leading to a Proof of Concept within two months, testing with users, defining the direction of our products.
- Accelerated our delivery by almost 50% by establishing design delivery standards and workflows, as well as reviews for increased quality.
- Established AI-first workflows and ethical AI practices across design processes.
- Implemented Learning Experience Design principles to enhance user engagement and knowledge retention.
- Advanced prototyping capabilities using Figma and Cursor for rapid iteration and testing.

Staff Product Designer - H & M Hennes & Mauritz AB

2021 / 01 – 2024 / 09

At H&M I've held a range of responsibilities, from working on features centred around fashion style and customer activation, guiding the end-to-end design process, to leading the UX revamp of the global Web Experience. I was also deeply involved in numerous design process initiatives from the Accessibility and AIxDesign groups, to supporting the Design System and Design Ops teams.

Key Responsibilities

- Product Design
- User Research
- Design Operations

Key Achievements

- Lead the global UX revamp of the web experience, aligning dozens of teams around Web & Desktop redesigns, providing coordination of usability studies and implementation, leading to an increase of 27% in sessions and a drop of 11% in single-page sessions on the index page.

- Co-founding the Design AI Circle and driving AI usage in design processes such as research summaries.
- Lead the ideation-to-prototype at a company record speed, with a time to market under 6 months.
- Revamped and improved the Digital Stylist project, reaching 200% more activations.

Product Designer - Sportamore AB

2018 / 01 – 2020 / 12

At Sportamore I was responsible for introducing a formal UX and UI design process for a big update of the ecommerce sites, as well as establishing the process of collaboration between design and development.

Key Responsibilities

- Product Design
- UX design
- UI design
- Design System

Key Achievements

- Redesigning the e-commerce experience at Sportamore through UX, UI and Visual Design.
- Established and implemented the Design System, Token System and Pattern Library.
- Introduced and established user research and data analysis into the design processes.

Product Designer - Granditude AB

2014 / 09 – 2018 / 01

Initially tasked with the development of a prototype for the company's data analytics cloud solution, I also ended up handling the brand identity, user experience, marketing, and worked as a UX / front-end design consultant for some clients as well.

Key Responsibilities

- Product Design
- Front-end Development
- Branding
- Visual Identity

Key Achievements

- Designed, developed and managed the development of the data app.
- Designed and developed the web-site and marketing.
- Refined the brand identity.
- Worked as a UI and front-end design consultant.

Junior Technical Artist - Plotagon AB

2013 / 01 – 2014 / 03

After a 6 month internship, I was hired as a Junior Unity Developer, and worked with the implementation of art assets into the Unity engine, and ensured the content was consistent.

Key Responsibilities

- Content Quality Inspector
- Unity Scene Lighting
- Unity Environment Art
- Developing Unity Tools

Key Achievements

- Constructed environments out of provided assets.

- Tested the app for bugs and maintained quality.
- Provided tools that facilitated the artists' workflow.
- Coordinated between the artists and developers.

Key Achievements

- 2011
  Professional Degree in Game Design – Future Games, Sweden

- 2009:
  Bachelors in Design, Erasmus – IUAV Universita de Venezia, Italy

- 2006
  Bachelors in Design – IADE University, Portugal

- 2002
  GCSE & IB Diplomas – St. Julian’s School, Portugal
